Sepulveda California
July 20, 1949.

My dear wife:

I hope every one of you here are O.K. as I left. We arrived here safely except that I was stoped by the night patrol at Fresno at about four o'clock that morning because I could not see the signal at the intersection because I was so sleepy already. He gave me a ticket which I am sending it back to Fresno to day. I don't know yet how much he will fine me for that violation.

I went to see Bill last night and he made already the prints for the house. I am going now to the Blue Printing office and have it run off so I can submit to the Building Commissioner. It may take three days before it can be aproved.

Marcelino is working for Big Boy & Bill picking beenies today so he is earning some money while I am getting ready to get started. Well, kiss my little sister Ramona, Johny & Mili for me. Don't let Jerido run off to much -
